

Incident Technical Investigation Training

Thanks, excellent effort.
Well done.
Excellent session
Very useful
Worth the trip.
Very good level and structure
Very well organised.

Too much information in 2 days
Too much presentation on first day
Tempo too high
Missing some technical information
Not enough time
Too rushed

Some materials not readable
Handout printing too small
Bigger graphs

Overall view

- Very good material
- Well organised
- Make it 3 days
- High quality presentation
- Some attendees struggled with technical effects , others loved them.

Do we do it again?

- Considered to be the only training of it's kind available
- Perhaps split it for 2 levels of attendee
- Better management of handouts and bigger printing on charts
